SUMMARY

Javascript Web Developer experienced in designing, developing, testing, debugging mobile and web applications. Experienced small business owner, taking ownership of my work and a natural leader. Developed dynamic, interactive applications using React, React Hooks, Node, Express with Restful API and SQL database.

SKILLS

FRONT_END: Javascript, React & React.Context, Redux, Hooks, Sass, Styled Components, HTML5, CSS3, jQuery,
BACK_END: Node.js, Express, Knex, SQL & PostgreSQL, Firebase, **TESTING:** Jest, Enzyme, Mocha, **OTHER:** Git & Github, Zeit, Heroku, NPM, Photoshop, Illustrator

PROJECTS

Crown-Clothing / [Demo](#), [Github](#)

An e-commerce web application featuring a full online clothing store with google sign-in and payment processing. Currently still in 'work-in-progress' state. Upcoming features: GraphQL with Apollo, and mobile responsive design. TechList: JavaScript, Firebase, Stripe, React, React.Saga, React.Hooks, NoSQL, HTML5, CSS3, Sass, Styled-Components, Heroku.

GREENthumbsUP / [Demo](#), [Github-Client](#), [Github-Server](#)

A Full-Stack, responsive app where you can create a positive impact on the local restaurant industry by reviewing a place adheres to environment friendly practices. Built using Rest Programming techniques with a PostgreSQL db, Node and Express server and a React Client.

Yoga Track / [Demo](#), [Github-Client](#), [Github-Server](#)

A Full-Stack mobile first responsive app designed for yoga teachers and enthusiasts, helping a user to explore and learn a variety of poses and ability to create class flows. Using Rest Programming techniques this app was built with a PostgreSQL db, Node and Express server and a React Client.

EDUCATION

THINKFUL | FULL STACK SOFTWARE ENGINEERING

March 2019 – March 2020

1600 + hrs hands on coding experience, mentored by senior developers, agile JavaScript and ES6 - Build interactive client-side web apps with JavaScript, React and jQuery. RESTful APIs with PostgreSQL DB, NodeJS and ExpressJS. Learn modern JWT-based auth flows and test apps with the Mocha and Chai frameworks, and deploy to Heroku and Zeit.

UNIVERSITY OF FINE ARTS | MASTER OF FINE ARTS

2003
